4. 30-60-90 Day Goals Framework

First 30 Days - Learn

- Complete all mandatory compliance training on TalentLMS: InfoSec (2h), GDPR (1h), Anti-bribery (1h), Code of Conduct (1h)
- Read the full product documentation and test the platform as a real user across all features
- Attend all team standups, sprint ceremonies, and cross-functional meetings - observe before contributing
- Complete development environment setup (engineers) or workflow certification (other roles)
- Complete 1:1 introductions with all direct teammates within the first 2 weeks
- Identify 3 things TechCorp does well and 3 areas with potential for improvement

Days 31-60 - Contribute

- Own and complete your first meaningful deliverable with guidance from manager and buddy
- Proactively identify one process improvement and propose a concrete solution with estimated impact
- Build working relationships with at least 5 stakeholders outside your immediate team
- Present a structured update on your first month's learning and contributions to your team
- Take on a stretch assignment that slightly exceeds your current comfort zone

Days 61-90 - Lead

- Drive an end-to-end project or initiative with minimal supervision from day-to-day management
- Mentor a newer hire or actively contribute improvements to onboarding documentation
- Set and align on OKRs for the upcoming quarter with manager and relevant stakeholders
- Complete your 90-day performance check-in: self-assessment, peer input, manager evaluation
- Identify your top 3 skill development priorities for the next 6 months

6. Company Culture and Values

TechCorp's culture is built on five core values that guide every decision and interaction:

- Customer Obsession - every decision starts by asking 'how does this help our customer?'
- Bias for Action - move fast, ship, learn from outcomes; analysis paralysis is our enemy
- Radical Transparency - share context openly, especially when it's uncomfortable
- Ownership Mindset - treat the company as your own; don't wait to be asked
- Inclusive Excellence - diverse teams build better products; every voice belongs here
